

# SOUTH DAKOTA ASSOCIATION OF COLLEGE CAREER CENTERS

<http://www.getgrads.com/>

## SDACCC GOALS

- Be the premier source of information on the college student and graduate employment market in South Dakota.
- Collaborate and sponsor professional activities and projects intended to strengthen the career development of post-secondary students and of its institutional and individual members.
- Sponsor, promote and conduct annual job fairs dedicated to linking employment opportunities to students and alumni of South Dakota's post-secondary educational institutions and to the general public.
- Exercise any and all powers, rights and privileges under a corporation organized under SDCL-47-22.

## OBJECTIVE

The goal of South Dakota Association of College Career Centers (SDACCC) formerly known as the South Dakota Career Planning and Placement Association (SDCPPA), is to serve as a connection between employers and post-secondary graduates. SDACCC members include nearly all colleges, universities, and technical schools in South Dakota.

## PROFESSIONAL PROFILE

SDACCC works together with employers and organizations to better prepare post-secondary graduates for a successful transition into the workforce through career events, conferences, and hosting employers and organizations to participate in panels with members, to discuss workforce issues or educate students.

## SDACCC CONSORTIUM

The SDACCC employment consortium was created at the request of employers, providing a centralized location to advertise to qualified candidates across the state. Employers may:

- Visit one online location and post an unlimited number of internships, co-ops, and jobs.
- Have positions automatically sent to all SDACCC member institutions.
- Access a large number of bright and talented candidates throughout South Dakota.

Member institutions may share postings with students using preferred distribution methods (i.e. – GradLeaders, NACE Link, Handshake, or others).

## BENEFITS

- Professional development
- Leadership opportunities
- Employment postings
- Employer relations
- Networking

## LEGACY GRANT

Institutional members are eligible to apply for financial support for professional development activities.

## SERVICE

In order to operate in a manner which benefits students and their future employers, SDACCC depends upon representatives from member organizations to be actively involved in the projects of SDACCC. Most professional development expenses are covered by member's service to the organization, making the organization very affordable.

If there is inactivity or limited activity on the part of a member institution, meeting reimbursement and/or membership may be reduced, or denied.
